Hospice Palliative care for children is the active total care of the child's body, mind and spirit, and also involves giving support to the family.

The South Coast Hospice children's programme, cares for children in their homes as well as in the inpatient unit this is called; The Rainbow Room.

The Rainbow Room is a special place where children who are very sick come to be cared for. It is much nicer to be cared for in their homes with their favourite things around them. Sometimes this is not possible and then our Rainbow room offers a special place for children to come to visit the doctor and to stay overnight when special care is needed. There is a special chair/bed where a parent can stay the night.

We ask you to support The Rainbow Children's Programme.
